### **SIM Card Operated Observation Camera**

#### **Keep your eyes open!**

You can't be everywhere at once – but with the Nokia observation camera, you can keep your eye on places that are important to you, even when you are not there. You can keep an eye on the boat when you are in the house, or keep an eye on the house when you are on the boat. Simply request a picture by text message – and keep your eyes open!

#### **Nokia Observation Camera**

- Image can be sent to any MMS capable, user defined mobile phone or email address.
- Can be programmed to take pictures automatically at a designated time.
- Captures and sends images when triggered by a motion sensor.
- Thermometer feature can be set to warn if the temperature goes out of a set range.
- Cost: €420.00 plus IVA.

#### **Vodafone Data SIM Card**

The observation camera is equipped with a SIM card. When you send the text message, it acts like a camera phone and sends you a picture, or video of what it sees. The charge for the line is just €30 per month.

If you would like more information about this extremely cost effective surveillance device, please call on one of the numbers below, or visit our website at [www.e3s.com](http://www.e3s.com).
