

E3 Connect SFR Blackberry Service

Q2 2008 – Valid until 30th June 2008

The Blackberry service is a 'push email' service which enables you to receive your emails in real time via a Blackberry activated handset. With the E3 Connect service via SFR you have a choice of Blackberry or Nokia handsets to buy and can use the service within France or abroad. All you need is a GPRS connection in France and roaming activation for the country you are travelling to.

You can have up to 10 email accounts associated with the device (if you are a Hotmail user, this is Hotmail Premium only) and you can read attachments such as Excel, Word, Powerpoint and PDF files.

You can synchronise your email to a desktop PC to ensure you keep track of emails sent from your Blackberry.

The prices are as follows:

- Blackberry handset: Depends on model, consult E3.
- Monthly fee: The monthly charges for Blackberry are added to your contract so that you can continue using your existing E3 Connect SFR number. You have the choice of the following tariffs:
- Occasional user tariff: €20.00 per month, 5MB included. (5MB corresponds to 2,500 emails compressed to 2KB per email. Each extra email costs €0.001 on the national tariff.)
- Frequent user tariff: €40.00 per month 30MB included: (30MB corresponds to 15,000 emails compressed to 2KB per email. Each extra email costs €0.001 on the national tariff.)
- Roaming charges: €40.00 per month 6MB included (Optional). Applies to emails within the area of 'SFR Monde' i.e. Vodafone partner networks. Any data over 6MB is charged per 10KB step as per the SFR Monde tariff below. Roaming service is optional, minimum roaming term is 3 months.

SFR Monde tariff for Blackberry (Roaming)

	Vodafone Partner	Other networks
	Price per 10KB	Price per 10KB
Zone 1	€0.20	€0.34
Zone 2	€0.45	€0.50
